SKILLS

Pandas

Python Flask

Django **AWS Glue**

Web Scraping

AWS Lambda Machine Learning

Data Visualization Dashboard Design

MongoDB **DynamoDB**

Version Control Database Design

DataLake FastAPI

Flask postgresql

Docker **Computer Vision**

Explanatory Data

Analysis

redis

Tailwind FastAPI

LANGUAGES

English Norsk **Proficient** ≈ A1 (attending norskkurs)

VOLUNTEERING EXPERIENCE

EuroPython Society

Onsite Volunteer

(Jul 2023 - Jul 2023)

- Onsite Volunteer at EuroPython Prague and Remote Conference
- Session Chair for 5+ sessions
- Managed auditorium for multiple sessions
- https://ep2023.europython.eu/thankyo

PyData Kathmandu (Jun 2019 - Present) Organizer/Mentor

- Organizing and managing Data Science Training Sessions for 50+ community members in a session.
- Assist the members with technical difficulties for Data Scientist Career Track of DataCamp.
- https://www.meetup.com/PyData-Kathmandu/

BLOG

Data Science and Stuffs

PUBLICATIONS

Blockchain in HandiCraft (Sep Supplychain Management (2019) 2019) **ICTAES**

2nd Himalayan Conference on Advanced Engineering and ICT-Convergence, Kathmandu

https://ictaes.org/wp-

content/uploads/2019/09/3_IJAE_Vol2 No2.pdf

Anomaly based Intrusion **Detection System** 2019)

Annual Journal of Institute Of Engineering, Thapathali Campus

https://www.researchgate.net/publicati on/341792966_Anomaly_based_Intrusi on_Detection_System

Backend Developer and Data Science Professional, with 5+ years of crafting solutions. Driven by solving problems efficiently and with correct approach, I believe in magical impact Data can bring to corporations and this generation.

Skilled in Python, multiple backend frameworks, ETL, Data Analysis, Machine Learning, impactful visualizations, software development and equally efficient in leadership and communication skills.

WORK EXPERIENCE

Senior Backend Developer

Izv AS

(Mar 2023 - Present)

- Core developer of a microservice from scratch which accounts for \approx 80% of monthly sales volume.
- Senior developer for maintaining 18 microservices with around 773 endpoints.
- Majorly developed in Flask_restx framework with multiple custom made modules as per use
- https://izy.no/

Resimator Oy

(May 2022 - Feb 2023)

Senior Python Developer (Backend)

- Working on backend of highly scalable facility management system.
- Dockerized Flask_restx instance interacting with AWS Aurora as database for each of microservices
- https://resimator.fi/

CloudyFox Technologies Pvt Ltd

(Aug 2019 - Dec 2021)

Data Scientist

- Extraction of Data from different sources (database, google analytics), Transformation using AWS Data Services (AWS Glue, AWS Athena) and Loading to data lakes in and warehouses (AWSS3).
- Planned and implemented scalable AWS Lambda functions also used AWS Kinesis and AWS DynamoDB.
- Designing and maintaining Reporting Dashboards in Quicksight and PowerBI
- Document indexing in elasticsearch for search service.
- Web Scraping from 50+ corporate websites using tools like bs4, selenium and scrapy
- Groomed and lead and junior data scientist by defining learning tracks, mentoring about workflows.
- https://www.cloudyfox.io

Institute of Engineering, Thapathali Campus

(Nov 2018 - Apr 2019)

Teaching Assistant

- Lectures in C Programming and planning, supervising and monitoring Lab Projects
- https://www.tcioe.edu.np

Rooster Logic Pvt Ltd

(Jun 2018 - Jul 2019)

Python Developer / Data Analyst

- Python Flask Framework for open data portals.
- Used TF-IDF vectorizer to identify document similarity.
- Conceptualized and implemented a prototype of blockchain application in POW consensus.
- https://roosterlogic.com/

EDUCATION

Nepal Open University

(Oct 2020 - Present)

Masters in E-Governance, Information Technology

- Distance Education
- Focused in use of IT for public service delivery and good governance
- Studied Artificial Intelligence, Databases, Information System Audit
- https://nou.edu.np/

Institite of Engineering, Thapathali Campus

(Apr 2013 - May 2017)

Electronics and Communication, Engineering

- Served as Founding President of ECAST (Electronics Community) for 2016 -17.
- Participated in Ncell App Camp (2014, 2015)
- Completed degree with First Division
- https://www.tcioe.edu.np/

PROJECTS

Global music sharing application (Startup)

(Jan 2021 - Dec 2021)

German Startup

- Planned and implemented data pipelines and summarized dashboard for important KPI's.
- Planned user journey based on metrics generated by usage pattern which was available on both iOS and android globally.
- Music Information Retrieval (MIR) based on music characteristics like Mel Frequency
- https://www.tingting.app/

Nepali Currency Classifier (Computer Vision) Computer Vision

(Mar 2022 - Apr 2022)

- Transfer learning of VGG 16 pretrained model using Keras Trained on 10K+ images of Nepali Currency with 7 classes
- Validation and Test accuracy ~90%
- https://github.com/pysaurav/nepali-currency-classifier
